Introduction

LMKR is pleased to announce the release of the GVERSE[™] Planner[™] 2015.1 software. GVERSE Planner is integrated with GeoGraphix[®] and it is used to plan wells within GeoGraphix/Field Planner modules. It enables integrated well planning giving user the control to plan multiple wells. With GVERSE Planner, you can quickly visualize geological surfaces, create surveys and make changes to existing plans by adding target points on the go with the ability to export well plans for drilling. GVERSE Planner is part of the GVERSE application suite by LMKR (<u>http://www.lmkr.com/gverse</u>).

LMKR GVERSE consists of geoscience and engineering solutions focused on workflow optimization and enhancing productivity of teams working on diverse geological and geophysical projects.

This document provides the Install instructions for GVERSE Planner[™]. It also lists the system requirements necessary to install and run the software.

System Requirements

The following sections list the system requirements for the Planner.

Software

The software that must be installed on the system running the Planner are as follows:

- GeoGraphix Discovery 2015.1.x.
- LMKR License Management Tool 2015.1 for Planner license.

The LMKR License Management Tool (LMT) must be installed to configure the Planner license.

- Microsoft[®] .NET Framework 4.5.1
- Adobe Reader for selected help files (optional).

Operating System

To run the GVERSE Planner, you need one of the following operating systems installed on your system:

- Windows[®] 7 Professional x64.
- Windows[®] 7 Enterprise x64.
- Windows[®] 7 Ultimate x64.

Note: It is recommend to use the latest Microsoft[®] service packs and security patches.

Hardware

The hardware requirements for the Planner are the same as the GeoGraphix hardware requirements.

Licenses

The following licenses are required to run the GVERSE Planner:

- GeoGraphix Discovery 2015.1.x license.
- GVERSE Planner 2015.1 license.

<u>Note</u>: Refer to the LMKR Customer Support Portal (<u>http://support.lmkr.com/</u>) for up-to-date information on the requirements.

Installation

This section guides you through the installation and uninstallation processes of the Planner software.

Installing GVERSE Planner

Prior to installation, please make sure that the supported version of GeoGraphix is installed on the system.

To install the Planner software:

- Download the software from the LMKR Support Portal Downloads page (<u>http://support.lmkr.com/</u>).
- 2. Navigate to the location where you downloaded the installation setup.

Note: Before starting the installation, please make sure that all open applications are closed.

3. Double-click the Planner software setup executable file (EXE).

The Installation Wizard dialog displays.

4. Click Next.

The End User License Agreement dialog displays.

5. If you agree to the license agreement, then click Install.

The installation process initiates and the dialog displays the installation progress.

GVERSE ara	Planner Fully integrated well planning Please wait while setup is installing Planner on your machine
	Install

When installation is finished, the Exit dialog displays.

6. Click **Exit** to complete the installation.

Uninstalling GVERSE Planner

GeoGraphix must be closed before removing the Planner.

To uninstall the Planner software:

1. From the Windows Start menu, select Control Panel.

The Control Panel window displays.

2. From Programs, select Uninstall a Program.

The Programs and Features window displays.

3. In the list of applications, double-click **GVERSE Planner 2015.1**.

The dialog to uninstall the Planner software displays.

4. Click Uninstall.

The uninstall process initiates and the dialog displays the uninstallation progress.

Please wait while setup is removing Planner from your machine

Once the Planner is uninstalled from your system, the 'Uninstallation complete' message displays.

5. Click **Exit** to finish the uninstallation.

# Licensing

To run GVERSE Planner software, you need a valid LMKR license. Please contact <u>COS@lmkr.com</u> to request a license. Once you receive the license, use the LMT to configure it for a single system or to set up a network license on a server. This can be done either before or after the Planner software installation.

If a license file is not configured, then the Planner software does not open and an error message displays. In this case, you must configure the license using the LMT, and then relaunch the Planner software.

This section provides basic information on how to configure the Planner license using the LMT. For detailed information on how to install the LMT and configure the Planner license, please refer to the LMT installation document.

### Configuring the License

To configure the Planner license:

- 1. Obtain your license file from <u>COS@lmkr.com</u>.
- 2. Download the LMT from the LMKR Support Portal Downloads page (<u>http://support.lmkr.com/</u>).
- Install the LMT. Once installed, launch the LMT from Start>>All Programs>>LMKR>>Licensing>> License Management Tool.

The LMKR License Management Tool Welcome dialog displays.

LMKR License Management Tool		
Welcome		
I want to configure client licensing for this computer		
I want to setup or manage a network license server on this computer		
<u>k</u>	About	Close

- 4. In this dialog, you can either:
  - Click I want to configure client licensing for this computer to <u>configure a client side license</u> on the current system.

Or

 Click I want to setup or manage a network license server on this computer to <u>setup an LMKR</u> license server.

### Configure a Client Side License

After clicking I want to configure client licensing for this computer, the following Client Licenses dialog displays.

LMKR License Management Tool	
Client Licenses	
	Move Up
	Move Down
Upload File Add Server Remove View	
Back	Done

- 5. In this dialog, you can either:
  - Click Upload file to <u>select a standalone client license file</u>.
     Or
  - Click Add Server to <u>connect to an existing license server</u>.

#### Select a Standalone Client License File

6. Click Upload File, browse to select the license you received from LMKR, and then click Open.

The selected license displays.

C:\ProgramData\LMKR	Licensing\Client1.lic	(From C:\Temp\Standal	oneLicense.txt)	
				Move Up
4		m		 Move Dow

#### 7. Click Next.

On successful license configuration, the 'Pass' message displays as shown in the image below.

8	LMKR License Manageme	: Tool			
L	icense Validation				
	Client1.lic - Pass	'C:\ProgramData\LMKR\Licer	nsing\Client1.lic' has passed the validati	on.	
	KR			Back	Done

**Note:** If an error occurs, please contact <u>support@lmkr.com</u> for assistance.

8. Click **Done** when finished.

Connect to an Existing License Server

6. Click Add Server.

The Add Server dialog displays.

Add Server			
Port Number	tion		Auto
Server Name			
	@		
		OK	Cancel

- 7. In this dialog, specify the following:
  - Port Number: If a specific port is required, clear the Auto check box, and then enter the port
    number that matches the port number being used by the LMKR license server (contact your
    network administrator for more information).
  - Sever Name: Enter the LMKR license server name.

**Note:** By default, Auto is selected. This option is checked only when the license server uses a block of ports specific for Flexera FLEXnet Licensing ranging from 27000 to 27009.

#### 8. Click **OK**.

The selected LMKR license server displays in this dialog.

LMKR License Management Tool

LM KR	Back	Next

- 9. Click Next.
- 10. Click **Done** once finished.

### Setup an LMKR License Server

This is only performed on the system running the LMKR license server.

After clicking I want to setup or manage a network license server on this computer, the Update Service dialog displays.

Service Name	LMKR License Service	Remove	
Port Number	0 V Auto		
License File		Upload View	
Log File	C:\ProgramData\LMKR\Licensing\LMKR License Service.log	Browse	
Lmkr.exe	C:\Program Files\LMKR\Licensing\LMKR.exe		
Lmgrd.exe	C:\Program Files\LMKR\Licensing\Imgrd.exe		

- 5. In this dialog, specify the following:
  - Port Number: If a specific port is required by your network administrator, clear the Auto checkbox, and then enter the port number.
  - License File: Click Upload to upload a new license file. The license file that is uploaded is renamed as Server.lic. This file is saved in the C:\ProgramData\LMKR\Licensing folder.
  - Log File: Click Browse to select a location to save the log file.

Service Name	LMKR License Service	Remove	
Port Number	0 V Auto		
License File	C:\ProgramData\LMKR\Licensing\Server.lic	Upload	View
Upload From	C:\Program Files\LMKR\Licensing\Discovery_counted_permanent_Server.lic		View
Log File	C:\ProgramData\LMKR\Licensing\LMKR License Service.log	Browse	
Lmkr.exe	C:\Program Files\LMKR\Licensing\LMKR.exe		
Lmgrd.exe	C:\Program Files\LMKR\Licensing\Imgrd.exe		

#### 6. Click Next.

The LMKR License Server is then installed as a Windows Service.

LMKR License Management Tool			
Service Name LMKR License Ser	vice		
Start Stop	Restart		
View Log	Validate		
LM .		Back	Done

7. Click **Start** to initiate the **LMKR License Service**.

The 'The service started' message displays on the dialog.

LMKR License Management Tool	
Service Name LMKR License Service	
Start         Stop         Restart         The service started.           View Log         Validate         Validate	
KR.	Back Done

**Note:** If an error appears, contact <a href="mailto:support@lmkr.com">support@lmkr.com</a> for assistance.

8. Click **Done** once finished.

# **Third Party Applications**

LMKR acknowledges that certain third party code has been bundled with, or embedded in, its software. The licensors of this third party code, and the terms and conditions of their respective licenses, may be found in the Planner help file.

To access the 3rd party license agreements:

1. In the GVERSE Planner Settings dialog, Help tab, click **Documentation**.

The Help window displays.

2. In the **Contents** pane, locate the **3rd Party Acknowledgements** help topic as shown in the image below.

# International Trade Compliance

This application is manufactured or designed using U.S. origin technology and is therefore subject to the export control laws of the United States. Any use or further disposition of such items is subject to U.S. law. Exports from the United States and any re-export thereafter may require a formal export license authorization from the government. If there are doubts about the requirements of the applicable law, it is recommended that the buyer obtain qualified legal advice. These items cannot be used in the design, production, use, or storage of chemical, biological, or nuclear weapons, or missiles of any kind.

The ECCNs provided here (if available) represent LMKR's opinion of the correct classification for the product today (based on the original software and/or original hardware). Classifications are subject to change. If you have any questions or need assistance please contact us at <a href="mailto:support@lmkr.com">support@lmkr.com</a>.

Under the U.S. Export Administration Regulations (EAR), the U.S. Government assigns your organization or client, as exporter/importer of record, responsibility for determining the correct authorization for the item at the time of export/import. Restrictions may apply to shipments based on the products, the customer, or the country of destination, and an export license may be required by the Department of Commerce prior to shipment. The U.S. Bureau of Industry and Security provides a website to assist you with determining the need for a license and with information regarding where to obtain help.

The URL is: <u>http://www.bis.doc.gov</u>.

## Definitions

ECCN - Export Control Classification Number - The ECCN is an alpha-numeric code, e.g., 3A001, that describes a particular item or type of item, and shows the controls placed on that item. The CCL (Commerce Control List) is divided into ten broad categories, and each category is further subdivided into five product groups. The CCL is available on the <u>EAR Website</u>.

The below illustration is a sample:

The ECCN number (if available) and License Type for this product are included in the table below. Also included is the date the table was last updated.

Product/Component/R5000	EAR Number	License	Last Updated On
GVERSE Planner	EAR99	EAR	11/23/2015

# Contacting LMKR Support

LMKR is committed to providing the highest level of technical customer support in the industry. With an average tenure of more than thirteen years, our highly trained and experienced staff of technical analysts is comprised of geoscientists, engineers, land professionals, petrophysicists, and system specialists.

Please refer to our Customer Support timings mentioned below to ensure that you have access to our support analysts assigned to your region. When getting in touch with LMKR support, please remember that real-time support will not be available during bank holidays or after office hours. If you do get in touch with LMKR Support outside of work hours, please leave a voice message with a brief description of the issue that you are facing. Your voice message will be used to automatically create a support case for you. This will enable our analysts to attend to your issue and provide you with a resolution as soon as possible
