Compatible Release:	2016.1.4
Build Number	N/A
Checksum (MD5) for HF1.zip	4c8ea44d3ea4b5caca0ca24bf7a7589

### What's in this Release?

This hotfix enables users to directly load proposed surveys into GVERSE™ WebSteering 2016.1.4.

### Hotfix Dependencies

GeoGraphix 2016.1.4 must be installed prior to the hotfix installation.

### Fixed Issue

#### Project Manager

ID	Issue Description	Fix Description
135853	Unable to directly load proposed surveys into WebSteering.	A new tab <b>Proposed Survey</b> is available to load proposed surveys directly into the WebSteering interface This tab is available under the Surveys tab. It allows you to select or drag-and-drop excel files containing survey information. On the <b>Map Excel Columns</b> pop-up, map the desired excel file columns and either select the landing point station or enter the landing point MD. A new survey ID is assigned by GeoGraphix to the proposed survey. Since the proposed survey is now saved in GeoGraphix it is populated in the <b>Proposed Surveys</b> drop-down list like all existing proposed surveys.

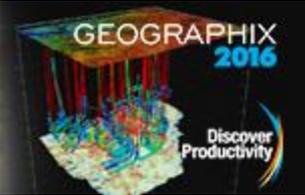

### Installation Instructions

To install this hotfix:

1. GeoGraphix 2016.1.4 must be installed.
2. Shutdown all running GeoGraphix 2016.1.4 applications and services.
3. Download the hotfix installer to a folder on your hard drive.
4. Extract the contents of HF1.zip.
5. Right-click **DeployHotFix.exe**, and then click **Run as Administrator** from the context menu.

### Support via Web Portal

You can also submit a support request directly to LMKR Customer Support by registering a case through the **LMKR Customer Support Portal**: <http://support.lmkr.com>

To request support in the LMKR Customer Support Portal:

1. In the main support page, **login** using your registered email and password. Please register your email before you access the site.
2. Select the **Case Management** tab or use the **Manage Cases** link on the main support page.
3. In the **Case Management** tab, click the **Create a New Case** link.
4. In the **Create Case** page, fill in the necessary information. Provide details about your technical concern, including any error messages, the workflow steps where the problem occurred, and attach screenshot that display the problem. You can also attach other files, such as example data files, which may help understanding the issue
5. Click the **Create Case** button. A support analyst in the nearest Technical Assistance Center will respond to your request.

We will ensure a quick and satisfactory answer to your query. If the problem cannot be resolved over the phone at the regional level, an escalation team will take over the resolution of your support case and will get back to you without delay.
