What's in this Release?

The preview of this service pack includes fixed customer reported bugs.

Service Pack Dependencies

GeoGraphix 2017.3 or 2017.3.1 must be installed prior to the installation of this service pack.

Fixed Issues

GeoAtlas

ID	Fix Description
14402	Efficient resource handling after optimization of GDI objects in GeoAtlas.
187270	An issue was identified and fixed which caused GeoAtlas to crash when system was left idle.
178622	An issue was fixed allowing multiple users to use the same layer in a network environment. Previously in some scenarios, a layer used by multiple users resulted in a broken blank layer.

Install Instructions

To install:

1. **GeoGraphix 2017.3** or **2017.3.1** must be installed.
2. Shutdown all **GeoGraphix 2017.3/2017.3.1** applications and services.
3. Download **Discovery2017.3.2Setup.exe** to a folder on your hard drive.
4. Right-click **Discovery2017.3.2Setup.exe**, and then select **Run as Administrator** from the context menu.

Uninstall Instructions

To uninstall the GeoGraphix service pack:

1. Open the **Programs and Features** applet by selecting **Start >> Control Panel >> Programs and Features**.
2. Click **View Installed Updates** on the left panel of the **Programs and Features** applet.
3. Select **GeoGraphix 2017.3.2**.
4. Right-click, and then select **Uninstall** to remove the service pack.

Support via Web Portal

You can also submit a support request directly to LMKR Customer Support by registering a case through the **LMKR Customer Support Portal**: <http://support.lmkr.com>

To request support in the LMKR Customer Support Portal:

1. In the main support page, **login** using your registered email and password. Please register your email before you access the site.
2. Select the **Case Management** tab or use the **Manage Cases** link on the main support page.
3. In the **Case Management** tab, click the **Create a New Case** link.
4. In the **Create Case** page, fill in the necessary information. Provide details about your technical concern, including any error messages, the workflow steps where the problem occurred, and attach screenshot that display the problem. You can also attach other files, such as example data files, which may help understanding the issue
5. Click the **Create Case** button. A support analyst in the nearest Technical Assistance Center will respond to your request.

We will ensure a quick and satisfactory answer to your query. If the problem cannot be resolved over the phone at the regional level, an escalation team will take over the resolution of your support case and will get back to you without delay.
