## **General Information**

Date	December 09, 2019
Product	GVERSE <sup>®</sup> Geophysics
Hotfix Version	2019.2.1 HF1 for GeoGraphix <sup>®</sup>
ECCN	This GeoGraphix hotfix is exported under license exception TSU
Platform	Windows <sup>®</sup> 7 or 10, (64-bit)
Prerequisite Updates	GeoGraphix 2019.2.1 must be installed prior to the Hotfix installation
Supersedes Version	None
Compatible Release	2019.2.1
Build Number	N/A
Checksum (MD5) for HF1.zip	c36d270626de4bf58741491bc0919719 HF1.zip

## What's in this Release?

This hotfix includes fix to a customer reported bug.

# **Hotfix Dependencies**

GeoGraphix 2019.2.1 must be installed prior to the hotfix installation.

## **Fixed Issues**

# **GVERSE Geophysics**

ID	Fix Description
196794	Performance degradation was observed in a client's environment for network projects containing multiple AOIs when launching the 3D scene or switching between the tabs. This issue has been resolved by fetching the AOI data on demand. The fetched data (list of AOIs) is then stored locally in cache ensuring fast data retrieval for subsequent operations. Any change in AOI from other applications requires the users to manually refresh the AOI list in 3D module of GVERSE Geophysics.

## **Installation Instructions**

To install this hotfix:

- 1. GeoGraphix 2019.2.1 must be installed.
- 2. Shutdown all running GeoGraphix 2019.2.1 applications and services.
- 3. Download the hotfix installer to a folder on your hard drive.
- 4. Right-click HF1.zip and from the context menu, select Properties.
- 5. In the Properties dialog, enable the Unblock check box. (Skip this step if the content is not blocked.)
- 6. Extract the contents of HF1.zip.
- 7. Right-click **DeployHotFix.exe**, and then select **Run as Administrator** from the context menu.

## **Files Updated**

- 1. LMKR.VVI.App.dll (any CPU) version 19.20.19339.2
- 2. LMKR.VVI.Core.Client.dll (any CPU) version 19.20.19339.2

# **Note**: To view the file version, right-click the file, and select **Properties** from the context menu. The **Properties** dialog displays. Select the **Details** tab.

## DISCLAIMER

If you have any questions or encounter any problems, please visit the LMKR Support website: <a href="http://support.lmkr.com">http://support.lmkr.com</a>

Or, contact Customer Support in your region. Refer to the section Contacting LMKR for details.

## **Contacting LMKR**

Our new dedicated system is accessible via local call-in numbers\* and is an alternative way for you to submit a technical support case and/or speak directly with a GeoGraphix Support Analyst.

#### Support via Web Portal

You can also submit a support request directly to LMKR Customer Support by registering a case through the LMKR Customer Support Portal: <u>http://support.lmkr.com</u>

To request support in the LMKR Customer Support Portal:

- 1. In the main support page, **login** using your registered email and password. Please register your email before you access the site.
- 2. Select the **Case Management** tab or use the **Manage Cases** link on the main support page.
- 3. In the Case Management tab, click the Create a New Case link.
- 4. In the **Create Case** page, fill in the necessary information. Provide details about your technical concern, including any error messages, the workflow steps where the problem occurred, and attach screenshot that display the problem. You can also attach other files, such as example data files, which may help understanding the issue
- 5. Click the **Create Case** button. A support analyst in the nearest Technical Assistance Center will respond to your request.

We will ensure a quick and satisfactory answer to your query. If the problem cannot be resolved over the phone at the regional level, an escalation team will take over the resolution of your support case and will get back to you without delay.
