Compatible Releases:	**2015.1.x**
Build Number	**15096**
Checksum for .exe (MD5)	**f94a6227e021d400c0ddd5e1fab6d7fa Discovery2015.1.3setup.exe**

What's in this Release?

This service pack enables GVERSE™ WebSteering™ 2016.1.1 users to:

- Access user defined Source Lists from GeoGraphix.
- View NAD27/UTM US Survey Feet projections.

Service Pack Dependencies

GeoGraphix 2015.1.x must be installed prior to the installation of this service pack.

Fixed Issues

The following customer reported issues are fixed in this service pack:

Project Manager

ID	Issue Description	Fix Description
1121186	Unable to access the user defined Source Lists from GeoGraphix.	The project scripts are upgraded allowing WebSteering to access the user defined Source Lists from GeoGraphix. Use the **Setup page** > **Server Connection** > **Source List** option to select the required Source Lists in WebSteering. On selecting a Source List, only formations saved with the sources present in the selected list become available in WebSteering.

GeoGraphix Database

ID	Issue Description	Fix Description
115738	Missing NAD27/UTM US Survey Feet projections.	These projections are made part of the GeoGraphix Root Database, and hence, they are supported in WebSteering.

Installation Instructions

To install:

1. GeoGraphix 2015.1.x must be installed.
2. Shutdown all GeoGraphix 2015.1.x applications and services.
3. Download **Discovery2015.1.3Setup.exe** to a folder on your hard drive.
4. Right-click **Discovery2015.1.3Setup.exe**, and then select **Run as Administrator** from the context menu.

Uninstall Instructions

To uninstall:

1. Open the **Programs and Features** applet by selecting **Start >> Control Panel >> Programs**.
2. Click **View Installed Updates** on the right panel of the **Programs and Features** applet.
3. Select **Discovery2015.1.3**.
4. Right-click, and then select **Uninstall** to remove the service pack.

Files Updated

Database

1. Root.db

Database Scripts

2. 15096.sql
3. 15096.proc

Project Manager

1. GXVPrjIO.dll (32-bit & 64-bit) version 16.1.15096.0
2. WBImpExp.dll (32-bit & 64-bit) version 16.1.15096.0
3. ProjectManager.exe version 16.1.15096.0

Note: To view the file version, right-click the file, and select the **Properties** option from the shortcut menu. The **Properties** dialog displays. Select the **Details** tab.

Post Service Pack Installation Instructions

Due to the changes in the project upgrade scripts, you must activate the projects in WebSteering after the service pack installation. Otherwise, you will not be able to view them.

DISCLAIMER

If you have any questions or encounter any problems, please visit the **LMKR Support website**:
http://support.lmkr.com
Or, contact Customer Support in your region. Refer to the section **Contacting LMKR** for details.

Contacting LMKR

Our new dedicated system is accessible via local call-in numbers* and is an alternative way for you to submit a technical support case and/or speak directly with a GeoGraphix Support Analyst.

*Contact Us:
North & South America
Toll Free (US/Canada): + 1 855 GGX LMKR (449 5657)

Support via Web Portal

You can also submit a support request directly to LMKR Customer Support by registering a case through the **LMKR Customer Support Portal**: http://support.lmkr.com

To request support in the LMKR Customer Support Portal:
1. In the main support page, **login** using your registered email and password. Please register your email before you access the site.
2. Select the **Case Management** tab or use the **Manage Cases** link on the main support page.
3. In the **Case Management** tab, click the **Create a New Case** link.
4. In the **Create Case** page, fill in the necessary information. Provide details about your technical concern, including any error messages, the workflow steps where the problem occurred, and attach screenshot that display the problem. You can also attach other files, such as example data files, which may help understanding the issue
5. Click the **Create Case** button. A support analyst in the nearest Technical Assistance Center will respond to your request.

We will ensure a quick and satisfactory answer to your query. If the problem cannot be resolved over the phone at the regional level, an escalation team will take over the resolution of your support case and will get back to you without delay.
