Build Number	N/A
Checksum (MD5) for HF3.zip	f1e8b793dbfbeaa38b0cb664bf09fa0a

### What's in this Release?

This hotfix includes fixes for customer reported bugs. Fixes for internally reported bugs in critical workflow(s).

### Hotfix Dependencies

Any of GeoGraphix versions 2019.4.2 to 2019.4.4 must be installed prior to the hotfix installation.

### Fixed Issues

#### ZoneManager

ID	Fix Description
233553	In certain cases, the <b>Remove</b> and <b>Remove All</b> buttons did not function properly when the <b>Zone and Attributes</b> filter was applied on attributes. This issue has been fixed.
233554	If <b>Zone and Attributes</b> filter was applied to a list of attributes for a zone and more attributes were added, the original attributes list and its data was lost and was replaced by the filtered list, even after removing the filter. This issue has been fixed.

### Installation Instructions

To install this hotfix:

1. Any of GeoGraphix versions 2019.4.2 to 2019.4.4 must be installed.
2. Shutdown all running GeoGraphix applications and services.
3. Download the hotfix installer to a folder on your hard drive.
4. Extract the contents of HF3.zip.
5. Right-click **DeployHotFix.exe**, and then select **Run as Administrator** from the context menu.
6. Select the deployed files, right-click and select **Properties** from the context menu.
7. In the Properties dialog, enable the **Unblock** check box. (Skip this step if the content is not blocked.)

## Files Updated

1. RMgrAPI.dll version 19.4.19879.3 (both 32-bit & 64-bit)

**Note:** To view the file version, right-click the file, and select **Properties** from the context menu. The **Properties** dialog displays. Select the **Details** tab.

## DISCLAIMER

If you have any questions or encounter any problems, please visit the **GVERSE GeoGraphix Support website**: <https://gverse.com/support>

Or, contact Customer Support in your region. Refer to the section [Contacting LMKR](#) for details.

## Contacting GVERSE GeoGraphix

Our new dedicated system is accessible via local call-in numbers\* and is an alternative way for you to submit a technical support case and/or speak directly with a GVERSE GeoGraphix Support Analyst.

## Support via Web Portal

You can also submit a support request directly to LMKR Customer Support by registering a case through the **GVERSE GeoGraphix Customer Support Portal**: <https://gverse.com/support>

To request support in the LMKR Customer Support Portal:

1. In the main support page, **login** using your registered email and password. Please register your email before you access the site.
2. Select the **Case Management** tab or use the **Manage Cases** link on the main support page.
3. In the **Case Management** tab, click the **Create a New Case** link.
4. In the **Create Case** page, fill in the necessary information. Provide details about your technical concern, including any error messages, the workflow steps where the problem occurred, and attach screenshot that display the problem. You can also attach other files, such as example data files, which may help understanding the issue
5. Click the **Create Case** button. A support analyst in the nearest Technical Assistance Center will respond to your request.

We will ensure a quick and satisfactory answer to your query. If the problem cannot be resolved over the phone at the regional level, an escalation team will take over the resolution of your support case and will get back to you without delay.
